

*Prevention Starts
with Protection*

Influenza Vaccination

Package

RM 88

Your Best Defence Against Influenza

*Take a proactive step to
safeguard your health and
the well-being of those you
care about*

Benefits of Influenza Vaccination

1. Helps prevent influenza and hospitalisation
2. Protects people with chronic conditions (e.g., asthma, diabetes, heart problems, weakened immunity)
3. Reduces severity of illness if you still get sick
4. Protects your family and community, including babies, children, the elderly, and vulnerable individuals
